Supervisory Committee Report

The HCFCU Supervisory Committee is responsible for ensuring that members' assets are safeguarded. To accomplish this, the committee oversees regular audits and member account verifications. The committee evaluates internal controls, compliance with governing laws, policies and procedures as well as making sure that accounting records are timely and accurately reflect operations.

Each year, the National Credit Union Administration (NCUA) reviews the credit union to confirm compliance with Board policies and federal laws and regulations. In addition to the NCUA review, an independent auditor conducts quarterly and annual audits of the credit union as an added security measure for our members. These reviews found HCFCU to be in excellent financial condition.

Based on extensive analysis, the Supervisory Committee is pleased to announce the financial statements in this report are a fair and accurate assessment of the financial position of HCFCU as of December 31, 2010. HCFCU is in excellent financial condition and is operating within the appropriate laws and regulations.

The role of the Supervisory Committee is vital to the credit union and its membership. We are grateful for your continued confidence in our oversight. The assistance and cooperation of staff, management and the Board of Directors in the performance of our responsibilities is much appreciated.

Steve Jennings Tom Rackley Pam Speer

Board of Directors Report

The economic climate in 2010 continued to be a challenge. Credit Unions were called on to strengthen the share insurance fund and reassure members that their funds were safe. Through financially sound lending practices and conservative financial management, Harris County Federal Credit Union was well positioned to answer that call. Growth continued in 2010 as we ended the year with over \$115 million in assets. Member deposits grew an additional \$13 million and in keeping with our philosophy of people helping people, competitive dividend rates were maintained for members. Also, the level of insurance provided per qualifying account was permanently raised to \$250,000. HCFCU even lowered certain loan rates to provide more savings opportunities.

The regulatory climate also created challenges which the credit union met head-on. HCFCU management and staff worked diligently to maintain exemplary service and competitive financial products in the face of increasing regulations. The credit union has enhanced services through products such as mobile banking and remains committed to bringing free financial education to the community we serve.

Harris County FCU continues to be safe, secure and solid. We have taken a proactive approach to managing growth and are committed to maintaining a safe, trustworthy, accessible and reliable credit union for years to come. As we move forward together, we thank you for your continued support.

Board of Directors
